## 6th Göttingen Symposium

### Tuberculosis in Nonhuman Primates

Göttingen, Germany  
December 1-2, 2010

organized by  
Prof. Dr. Franz-Josef Kaup  
Dr. Kerstin Mätz-Rensing

## Preliminary Program

### Wednesday, 01 December 2010

18.00 Welcome and Get-Together Dinner

### Thursday, 02 December 2010

09.00 *Dr. Sabine Rüsç-Gerdes*  
*Forschungszentrum Borstel*  
*National Reference Center for Mycobacteria*  
Tuberculosis - Return of a Forgotten Disease?

10.00 *Dr. Kerstin Mätz-Rensing*  
*German Primate Center (DPZ), Göttingen*  
Introduction into the Recommendations of the European  
Primate Veterinary Association (EPV): Prevention and  
Control of Tuberculosis in Nonhuman Primates.

11.00 *Dr. Hans Peter Steinmetz, Dr. Christian Wenker*  
*Zurich Zoo, Basel Zoo*  
Clinical Aspects of Tuberculosis in Nonhuman Primates.

#### Discussion and Break

13.00 *Dr. Alexis Lécu*  
*Paris Zoo*  
Overview of diagnostic tools.

14.00 *Dr. Björn Schröder*  
*Prionics AG, Zurich*  
Introduction of Test-Systems: Primagam Test.

15.00 **Final Discussion and Concluding Remarks**

A guided tour through the German Primate Center is offered at the end of the symposium.

## Invitation to the Symposium on Tuberculosis in Nonhuman Primates

Simian tuberculosis is one of the most important bacterial diseases of nonhuman primates because of its ubiquitous and insidious nature and its ability to spread rapidly. The increased incidence of tuberculosis among the human population and live stock increases the risk for primate keeping facilities.

By popular request we will organize a symposium on the issues of tuberculosis for primate husbandries. It will take place at the German Primate Center on

### December 1-2, 2010.

We would like to inform you about the current state of knowledge. The efficiency and interpretation of different test systems will be stressed and proceedings in case of positive reagents will be discussed. A special focus is planned on prophylactic measures. The results of the discussion will be integrated into a practicable guideline.

All persons interested in these topics are invited to attend this symposium.

Please register by the end of September 2010.

The final program will be posted in September 2010.
